ABOUT DA FORGIE

D.A. Forgie was established in 1974 by David Forgie and his wife Honor. Now over 50 years later we have greatly expanded, employing more staff, and operating across two branches; Limavady and Lisburn. We are the main dealer for many well-known brands such as Honda, Kubota Groundcare, Agriculture & Construction and Merlo telehandlers.

We are very proud to be a family-run business.

AGRICULTURE

M7004 TRACTOR

With up to 170 Hp, a wheelbase of 2.72m and a maximum lifting capacity of 9400kg these tractors combine the ability to handle heavy implements without sacrificing the outstanding maneuverability.

The Kubota Agricultural Range offers tractors for a wide variety of applications. From small holdings to large farms, there is a Kubota tractor that will suit everyone. Furthermore partner your tractor with Kubota implements for ultimate performance.

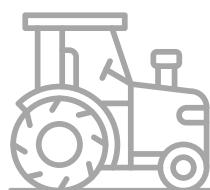

M4003
66HP - 74HP

M5002
94HP - 115HP

M6002
104HP - 143HP

M7004
130HP - 170HP

ROBOTIC, RIDE-ON AND WALK-BEHIND MOWERS

MIIMO ROBOTIC MOWER

Miimo is an intelligent, autonomous lawn management system designed to work tirelessly and silently, day or night. Using Micro-Mulching technology, Miimo cuts little and often, returning the fine clippings to your lawn as natural fertiliser for a healthier, lusher appearance, and eliminating the need to dispose of grass bags.

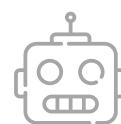

We offer the full spectrum of the reliable Honda Range. The range includes ATVs, Side by Sides, Push and Self-Propelled Mowers, Ride-On Mowers and the intelligent Miimo Robotic Mower. Choose Honda for quality, versatility, and reliability, all supported by the expert team at DA Forgie.

**PUSH MOWERS
FOR LAWNS
UP TO 1,800M²**
41CM-53CM CUTTING DECK

**RIDE-ON MOWERS

CHIPPERS, BRUSH CUTTERS, WALK-BEHIND & ROBOTIC MOWERS

ELIET®

Eliet manufacture an extensive range of groundcare and landscaping solutions including shredders, scarifiers, seeders, overseeders, lawn edgers, turf-cutters and leaf blower/vacuums. Whether your dealing with overgrown vegetation and trees and reprocess the waste with a green waste shredder, or to create or maintain the perfect lawn with the extensive Eliet turf care range for turf cutting, seeding, overseeding scarifying and the edging of lawns, there is a solution for you.

GRIN

CAMBIA LA TUA PROSPETTIVA

GRIN mulching mowers provide time saving mowing. Not only do they offer a high quality of fine cut, they also pulverise the grass within the deck so finely that it then returns to the ground as almost invisible fertiliser, returning valuable nutrients to the ground and with the added benefit of no grass cuttings to dispose of.

ECOTECH
ITALIA

EcoTech proudly own the patent to the swing system, an innovative oscillating motor machine system that keeps the engine in a horizontal position, regardless of the lateral slope of the ground. This allows EcoTech to offer a wide range of Brush cutters, remote-controlled as well, both wire and blade for slopes up to 45 degrees.

CANYCOM

Canycom ride-on brushcutters are renowned for the quality and excellence associated with Japanese manufacturing. They are designed to work in the toughest conditions, effectively clearing long grass, bushes, weeds, bracken & brambles in a variety of sites such as woodland trails and orchards.

Koppl produce high quality, high performance compact tool carriers and two-wheel tractors with a range of rapid change attachments. This system enables machines to be built to meet specific needs offering a reliable and efficient solution whatever the task. Mowing, groundwork or debris clearance can all be accomplished quickly and easily.
